

TUCSON ASTROLOGERS' GUILD

MAY 12 & 13, 2017
www.tucsonastrologersguild.org

LINEA VAN HORN

LOCATION: Plaza Arboleda Conference Center
2502 N. Dodge Blvd., Manzanita Conference Room

FRIDAY LECTURE, May 12, 7:30 pm, \$10/\$15 members/non-members

The Progressed Moon and Cardinal Signs

The Cardinal Signs – Aries, Cancer, Libra and Capricorn – used to be called the “changeable signs.” Not because they were changeable, but because they brought about change! We see this very clearly when watching the progressed Moon. We’ll use a visual technique to identify years when YOUR progressed Moon moved into Cardinal signs, and see what happened. User participation encouraged! Please email your birth data to gaelchilson@gmail.com so I can prepare your progressed lunar graph ahead of time and you can see for yourself how Cardinal Signs bring change!

Saturday, May 13: Free Beginner’s Class, 11:00 am – noon, taught by Gael Chilson

SATURDAY WORKSHOP, May 13: 1 – 5pm, \$20/\$25 member/non-members

Retrograde Planets

The study of retrograde planets thrusts us directly into geocentric astrology – seeing things from earth’s perspective. The sporadic contrary motion of the Wanderers (aka the planets) confounded our ancestors and propelled the early study of mathematics, astronomy and science. In this lecture we’ll see how the mechanics of retrograde motion impacts what we see and when we see it. This will inform us of certain qualities of each of the retrograde planets and will direct our analysis. You’ll learn not just what to watch for, but also productive ways to use natal, transiting and progressed retrograde planets.

Bio: Linea Van Horn, C.A., NCGR, is the “Astrologer at Large.” Linea is Founder and President Emeriti of the San Francisco Astrological Society (1992-2014) and has served on three NCGR boards, including the Board of Examiners. Formerly employed in the astrology Internet industry, Linea is a respected teacher, published author, and popular, lively presenter. She now devotes herself to client work, teaching, writing, and community building in the San Francisco Bay Area. Member of AFAN, ISAR and OPA.
