#### ***“Separating Aspects:***

#### ***Astrology of Breakups, Divorce, and Other Partings.”***

Astrologers are often called upon to help clients who are in the midst of difficult relationship transitions, including breakups and separations. While challenging, these times often lead to growth and profound healing. In this presentation we will cover the major patterns of breakups, using the forecasting techniques of transits and progressions to the natal and composite charts. Although focusing mainly on romantic relationships, we will also cover breakups in friendships, business, and family relationships.

### Saturday Workshop, January 13, 1 - 5 pm:

OPEN to all levels of knowledge and interest in astrology.

\$20/\$25 members/non-members, UA and PCC students \$5 off with ID

#### ***“ A Kiss Is Still A Kiss, or is it?***

#### ***The Astrology of Love and Sex Since the Discovery of Neptune.”***

Like all areas of life, love and sex continue to evolve and our perceptions of them change. This talk will follow their history from the middle of the 19th century to today, with an eye towards the future. We'll look at the movement of the outer planets through signs and the emergence of goddess asteroids, and we'll also explore the charts of key people and important milestones in our ongoing sexual evolution.
