Dark Side of the Moon We've all been trained to judge and resist our deepest instincts and impulses. We may even doubt our sanity when irrationally drawn to certain things or people. Sometimes we're wise to steer clear. But much of what we perceive as dark or twisted is actually a cry for help from the parts of us that have long been repressed or shamed. The Moon in your chart – its sign, house and aspects – reveals your needs, and how you may try to fulfill them. In this talk, Simone Butler will discuss our lunar needs, and share some fascinating Moon lore from her forthcoming book. She'll also share examples of how different Moon signs act out when their needs aren't being met, and how we might fulfill our lunar nature.

Saturday Workshop, October 14, 1 – 5:00 pm

\$20/\$25 members/non-members

Dark Side of the Moon, A Deeper Look In this workshop, we'll take a deeper and more personal look at the Moon and how it expresses itself, including how each Moon sign copes with its security needs. We'll examine charts of well-known people as well as those of workshop participants. And, we'll see how your lunar nature engages with the rest of your chart. Are you comfortable with your Moon? If not, what might be done to remedy that? We'll also examine major transits and progressions to the natal Moon, both past, present and future. Bring your natal chart or birth data to class. Note the timing of something deeply emotional that has happened or is currently happening in your life – and we'll see how comforting and understanding your Moon can help.

BIO: Simone began her career as a Los Angeles fashion editor, and has since written articles for a variety of publications. She worked as an astrological advisor and created daily forecasts for the Starscroll for 15+years. In addition, she wrote New Moon and Full Moon forecasts for Tarot.com. Read Simone's entertaining bi-monthly blogs at www.astroalchemy.com/blog, and listen to the monthly [Cosmic Download on YouTube](#), in which she and intuitive Anna Celestino put their heads together regarding each month's energies and what you can do to make the most of them.

Simone Butler is an expert astrological guide with more than 30 years of experience in helping people cut through the fog, find their purpose and achieve their goals. She lives in San Diego, California with her beloved kitties Max and Nora.

Saturday, October 14, 11:00 am – noon: Beginner's Class "Designed for You." This will be an opportunity to learn about your Moon sign and how it differs from your Sun sign. Facilitated by TAG professional member.
