Friday Lecture, May 11, 7:30 pm: "Spiritual Aspect Series"

OPEN to all levels of knowledge and interest in astrology.

\$10/\$15 members/non-members, UA and PCC students \$5 off with ID

Aspects are an important primary factor in Astrology, and there are several "spiritual" aspect series which give us insights into our unfoldment. The 5th and 10th harmonic series include quintiles and other specializing aspects, the 7th harmonic series includes the septile, biseptile, and triseptile, and the 9th harmonic series includes the novile, binovile, and quadranovile; these show our special gifts and interactions, "forks in the road of destiny" where we must make wise choices, and points of realizations on our hero's journey. We'll discuss the aspects, their meaning, and how they may easily be seen in a birth chart, as well as active voids created by these aspects which mark trigger points throughout the year for all of us.

Saturday Workshop, May 12, 1 – 5 pm: "Sabian Symbols"

\$20/\$25 members/non-members, UA and PCC students \$5 off with ID. OPEN to all levels of knowledge of astrology.

This workshop in applying the Sabian Symbols will open a deeper and wider view of their meaning in a natal or progressed chart, as well as the transits. We'll explore what they are and their internal structure in the signs. Then we'll apply them to outer planet transits to give a sense of the themes being played out in the "real world," and explore how aspects between transits stimulate certain symbol themes which show the lessons of that time. Then we'll use the Sabian Symbols to analyze the charts of those in attendance, looking at key natal chart points and applying aspect harmonics to see lessons related to those planets.
