

# TUCSON ASTROLOGERS' GUILD

April 14-15,  
2017

**Erin Sullivan**

**NEW LOCATION:** Plaza Arboleda Conference Center, 2502 N. Dodge Blvd.,  
(just north of Grant), Desert Willow Conference Room

**Friday LECTURE, April 14, 7:30 pm, \$10/\$15 members/non-members:**

**ESTABLISHMENT of IDENTITY: MARS, JUPITER and SATURN CYCLES:**

The evolution of our consciousness and the process of individuation is just that – it is not formulaic, and from the natal horoscope, Erin will emphasize awareness through the archetypal psychological eye. Using the mid-sequence planets– Mars, Jupiter and Saturn– we explore Identity based on core Self and the emphasis of self, family, society and our relationship with/to it. The cycles of Mars every 2 years and 2 months, Jupiter returns every 12 years and 1 month, and the now famous Saturn Return is marked – it has 4 major cycles in its 29.5-year cycle. No transit of a planet is ever experienced in the same way – *ever* – but the experience from the first transit to the next is familiar and thus is evolutionary. Knowing this accelerates consciousness. As we experience a strong transit, we embed that into our system and from that, it will evolve to yet another psychological state of being.

Erin refers both to natal and transits/cycles of these important planets as archetypal emissaries from the psyche into personality.

**Saturday: Free Beginner's Class 11:00 am – noon,** taught by Gael Chilson

**Saturday WORKSHOP, April 15: 1 – 5pm, \$20/\$25 member/non-member**

**COMPOSITE HOROSCOPE: The Alchemy of Relationship**

**You, Me and It**

1. Natal: Who am I?
2. Synastry: Who am I with you?
3. Composite: Who are We

The composite chart is not 'real' – that is, it exists outside time and space, has no true co-ordinates and is not composed of any configurations found in the ephemeris. It is exactly like a relationship - the meeting place between two people, no matter where they are on earth, and is never repeated in any other combination ever. There are no possible doubles, unless one actually forms a relationship with someone else born on the same day *at the same time and in the same place*. The uniqueness of relationship transcends the uniqueness of individuals simply because the combination of two people is far more unique than the experience of one person in him or herself. We cannot, however, take the composite without knowing the people who created it. It is essential that the needs of each individual be understood in order to further comprehend what the relationship will demand of each and of them together. It is important to understand what the individual is about, what he or she needs in life (not just in relationship) and what his or her goals, dreams, potentials, and actualities are.

**BIO: Erin Sullivan** is an internationally respected astrologer, teacher and writer for over 45 years in practice. She was instrumental in many groups and conferences we now enjoy. From 1988 through 2001 Erin was commissioning editor for the *Contemporary Astrology Series*, Arkana, Penguin, London – and published some of the best minds in the astrological field.

Her own 6 innovative astrology books are published in many languages and are on the course lists of all major astrology schools & university libraries. *Where in the World: ACG and Relocation* is recommended on Astrodiest.

Erin teaches for schools & online conferences and maintains an international astrological consulting/counseling practice.

Training Courses: Creatively illustrated with power point, are beautifully designed, very thorough – for self-directed learning – full curricula are on her website. [www.ErinSullivan.com](http://www.ErinSullivan.com)
