

# TUCSON ASTROLOGERS' GUILD

September 8 & 9, 2017

## Susie Cox

**Plaza Arboleda Conference Center  
2502 N. Dodge Blvd., Tucson, 85716  
Manzanita Conference Room**

**Friday Lecture, September 8, 7:30 pm,**

\$10/\$15 members/non-members

### **The Basics of Astro\*Carto\*Graphy**

Astro is Astrology and Cartography is the study of maps. Astro\*Carto\*Graphy combines them together. This technique shows your power spots around the world. Where was the Sun rising when you were born? Where was the Sun setting? Where were your Moon and Venus rising and setting? These are all power spots for you. If you like to travel or want to learn a new astrological technique, this is the lecture for you. Bring your chart.

**Saturday Workshop, September 9, 1 – 5:00 pm,**

\$20/\$25 members/non-members

### **Transiting Astro\*Carto\*Graphy**

What do you say when your clients want to know where to travel on their holidays? Some clients want a yearly travel itinerary and what do you tell them? This is an easy technique that puts the transits around your map for the upcoming year. This workshop could be called, "Where to Travel and When". Bring your charts and your Astro\*Carto\*Graphy Maps to use as examples through the workshop.

### **BIO**

Susie Cox has been a professional astrologer since 1971, during which time she has interpreted almost 50,000 charts. She started the very successful Metaphysical Department at Canyon Ranch where she was an astrologer for 32 years. Susie teaches chart interpretation at Kepler College, lectures internationally, has written countless articles, is a daily blogger and has written five books. She specializes in Business Astrology, Love Compatibility and Astro\*Carto\*Graphy for travel.

**Saturday, 11:00 am – FREE Beginner's Class with TAG professional member, Gael Chilson.** Let's find out where those transiting planets are in your natal chart to prepare for this afternoon's workshop.
