THE MOON and her NODES: Experiences of the past (south node) are the foundation of your future (north node). The lunar nodes are important points in the chart that describe where and how you meet experiences that help you grow, integrate your life and find personal fulfillment. When not used consciously, the nodes indicate a serious imbalance, unfilled potential, problems in relationships and emotional drain. Examine natal aspects of the lunar nodes and as well as transits to them.

Saturday Workshop, February 10, 1 - 5 pm:

OPEN to all levels of knowledge and interest in astrology.

\$20/\$25 members/non-members, UA and PCC students \$5 off with ID

INTERCEPTS & RETROGRADES: YOUR HIDDEN POWERS: Learn to appreciate and cultivate the personal power available via your retrograde planets and intercepted signs. This is a unique perspective of retrogrades and interceptions, and explains how they can be used as resources rather than liabilities. Explore the special potentials hidden in your intercepted signs and the strengths provided by retrogrades.
