### **“The Signs as an Archetypal Community”**

Most people who enter the doorway of astrology think of the signs of the zodiac in terms of their own Sun sign placement, and the Sun sign placement of people they know. This causes people to refer to Leos or Capricorns as if Sun sign placement for an individual and the pure archetype of that sign are the same thing. In this fun, humorous, and extemporaneous talk, Dr. Michael Lennox will illuminate the distinctions of each of these archetypes in such a way that is guaranteed to enhance your understanding of astrology as a whole, and help deepen your approach to working with all archetypes in a much deeper way.

## **Saturday Workshop, January 12, 1 – 5 pm**

**\$20/\$25** members/non-members, UA and PCC students \$5 off with ID.

**OPEN** to all levels of knowledge of astrology.

### **“The Nodes of the Moon and Life Purpose”**

There is a saying in the world of astrology: Nothing can happen that is not promised in the natal chart. In fact, everything you need to know is built directly into this blueprint of your first breath. The Nodes of the Moon are arguably the most sensitive geometry that helps a person understand their life path. The South Node gives us clues to our karmic lessons and the archetypal entrance you made into this life. The North Node holds the secret to our life purpose and dharmic expression. Working with the North Node sign, house placement, and interaction with other planets in your natal chart, a deep and profound understanding can emerge of why you are here, and what you are to do with your life. Join Dr. Michael Lennox for a fun and engaging look into your individual sense of purpose using the lens of astrology and the Nodes of the Moon.
