**\$10/\$15** members/non-members, UA and PCC students \$5 off with ID  
**OPEN** to all levels of knowledge and interest in astrology.

## **2020: Planetary Positions and Transitions – the Vedic Viewpoint**

The first year of this new decade promises some pretty great sidereal planetary positions. We'll consider the concept of Pluto moving into the constellation of Capricorn, while Saturn in strength is also nearby. Jupiter enjoys a quick trip through his own sign of Sagittarius; the Moon's Nodes will be in their best placement; Mars will be comfortable in his own sign of Scorpio. And, amazingly, Venus stays in the constellation of Taurus for over four months in 2020! Come and hear what a special day February 7, 2020 could be. We'll also take a close look at the nakshatras where these special combinations occur.

**Saturday Workshop, January 11, 1 – 5:00 pm,**

**\$20/\$25** members/non-members, UA and PCC students \$5 off with ID.  
**OPEN** to all levels of knowledge of astrology.

**A Survey of the Value of Jyotisha** This workshop will provide a view of how the planets express themselves, as measured from their actual positions in front of the constellations. From this sidereal basis we'll explore the richness of Jyotisha – the "Science of Light" – and how this ancient knowledge can improve your own self-awareness, and empower your predictive ability. In addition to what you may already know about the planets and houses and aspects, Jyotish adds another layer of specific attributes to these conditions. We'll take a look at the 27 nakshatras; planetary friendships and strengths; dasa periods; divisional charts; remedies, and whatever else we have time for. Charlotte hopes to be able to use the charts of attendees to emphasize these points. The system of Vedic astrology has been practiced continuously, with spectacular results, for thousands of years. Be there and find out why!

**Biography – Jyoti Devi Charlotte Benson** According to every Indian astrologer that she has met, Charlotte has been an astrologer for her past five lifetimes! Which is a good thing – since the "Ocean of Jyotisha" is deep and wide, and requires a lot of study. After having been a full-time practicing professional astrologer for almost 50 years she feels like she's finally got the hang of it.

Charlotte (Jyoti Devi is her spiritual name) has professional diplomas from all the major Western astrology organizations: AFA, NCGR, ISAR. She served on the AFAN steering committee; represented UAC; is the president emerita of the ASA; was a founding sponsor for Kepler College and for ACVA. She currently serves as the president of the [American College of Vedic Astrology](#); and has received the titles of Jyotisha Navaratna; Jyotish Kovid, and Jyotisha Choodamani.

**Saturday, January 11, 11:am to noon: Free Beginner's Class** There are two major systems to choose from as an astrologer or someone seeking a consultation: Western -Tropical or Eastern - Vedic-Sidereal. We will discuss the difference in this class as well as offshoots of both.  
Facilitated by Gael Chilson.
