**"Susie's Secrets"**

**Susie Cox** has just finished writing her 5th book, *Susie's Secrets: Decoding the Language of Astrology*, and will be conducting a workshop presenting this new offering via Zoom for TAG. Having interpreted over 50,000 charts during her career as a practicing astrologer, Susie has discovered a fool-proof method of chart interpretation that she will be sharing with you. This system works best with her style of an astrology chart so in preparation for the workshop, go to her website, [www.susiecox.com](http://www.susiecox.com) and click on **Get Birth Chart** button on the bottom right to have your natal chart emailed to you. Susie will show how to interpret natal charts during the workshop. This is the same technique she teaches her students at Kepler College. If you want a totally new way to look at birth charts, this workshop is for you. Guests are welcome to this session as we will be reviewing the basics of astrology as well, so please share!
