Suzanne Gerber - ASTROLOGY & KARMA

In the Internet age, more people are being called to study astrology than ever before, which is both exciting and daunting. But before we can read for anyone else, it is incumbent on us to become clear about our own belief systems—especially related to karma and free will — to understand why we believe what we do and to remember that these are beliefs, not unassailable truths. It's also essential to be conversant with our own "issues" and shadow so we don't inadvertently project them onto our client.

In this talk, I will discuss what karma is and, perhaps more importantly, what it isn't, and apply that understanding to contemporary Western life. There are many indicators of karma in the chart (and especially in chart synastry) and the better we can attune to those archetypes the more useful we can be to our clients.

Broadly speaking, everything in a chart is karmic because we didn't spring fully formed out of nowhere. If we accept the doctrine of the eternal nature of the soul and that souls continue to evolve from one incarnation to the next and if we also accept that astrological "code" can reveal truths about this soul and its journey—then we can begin to look at a chart through a karmic lens. Together we'll look at key indicators: the lunar nodes (signs, houses, aspects), Saturn, the natal moon and MC, with a mention of retrograde planets. And we'll reconsider traditional astrological interpretations but from a decidedly karmic perspective.

About Suzanne Gerber

Suzanne Gerber is a classically trained astrologer, energy and Reiki healer, and "recovering journalist" who uses the birth chart as the foundation for understanding the whole person. She believes that nothing is "fixed in stone" (or the stars) and that every position and aspect offers a multitude of possibilities for expression. As in quantum physics and biology, the more aware and awake—and masterful—we become, the more resources we have to co-create our lives.

Suzanne began her formal astrology studies in NYC in the early 1980s with a protégé of legendary Hungarian astrologer Zoltan Mason. Since then, Suzanne has studied and been initiated in a variety of healing practices and wisdom traditions. For decades, she wrote astrology columns for more than 30 magazines, newspapers and websites, including the AstroTwins, Elle and Inc.com.

From her home near Sarasota, Florida, an energy vortex on the Gulf of Mexico, Suzanne has a private astrology and healing practice, teaches online classes, and mentors and coaches clients around the world. A sixth-house Libra stellium with a Taurus ascendant, she lives with her Taurus partner and two Aquarian cats.
