**Shamanic Astrologer Erik Roth**, uncovers the mysteries of the asteroid Vesta in astrology and simplifies our understanding by utilizing the rich material known about this asteroid. Almost a planet in its own right, Vesta is the only asteroid we can see with the naked eye. Vesta symbolizes our "*sacred hearth within*" like an inner archetypal pulse or rhythm that supports our life purpose. In this presentation, Erik will discuss Vesta's relationship pattern with the planet Saturn and how it can bring the sacred into our lives. You will learn what Vesta means in your own chart and the importance of Vesta transits and returns. Vesta Returns are powerfully special as they typically coincide with our first two Saturn Returns.

**BIO:** Since 2010, Erik M Roth has been providing astrological services as a shamanic astrologer, teacher and author. He served 9 years (2012-2021) as the Managing Director of the Shamanic Astrology Mystery School. Author of *Sacred Hearth Within: Vesta in Astrology*

Erik has also co-created a new webinar series, Behenian Stars Online Course, with fellow astrologer, Cayelin Castell that explores the alchemy and archetypal, magical/ceremonial qualities of the stars, planets and astrology. This has been a natural outgrowth of Erik's ongoing vision quest of understanding the nature of who and what we are as souls inhabiting Earth as a physical body.

Ceres was promoted to dwarf planet status when Pluto was demoted. They have been linked together in mythology for thousands of years. Astronomical information has come to light that shows Ceres was drawn into the the asteroid belt from the area of the solar system where Pluto resides, by Jupiter's gravitational pull. We'll discuss the myth and the meaning of Ceres in our charts. We'll also be looking at the synodic cycles, the overtones and how we can apply them to cycles in our lives. **Taught by Gael Chilson.**
