Susie Cox will give an easy to understand overview of what will be happening astrologically for 2022. She will cover the planetary configurations, including Jupiter conjunct Neptune, Mars conjunct Venus as well as the last pass of Saturn square Uranus. The Moon’s Nodes are changing signs to Taurus and Scorpio. Also, the Chinese New Year, Eclipses, retrogrades and the visible planets for the year. This will give you an early glimpse of 2022. Susie lectures internationally, is a prolific blogger, writes a monthly newsletter and has written 7 books. Find out more about Susie at www.SusieCox.com

Dale O’Brien will talk about the 2022 Jupiter & Neptune conjunction in Pisces, sharing related U.S. history, the most recent previous Jupiter & Neptune conjunction, mythology, and their 2022 Sabian Symbol. The latter has, as he sees it, different probable expressions depending on a person's consciousness. He will have a few slides to go along with his words. Dale has been a professional astrologer and Certified Astro*Carto*Graphy Interpreter since 1991. His astrological writings have appeared in THE MOUNTAIN ASTROLOGER magazine and elsewhere. www.chironsouljourneytruth.com

Tom Withey will be discussing the current economic factors and future trends; how they will affect our personal finances and well-being for 2022 and the next several years, examining the impact of the Pluto return in the U.S. chart and how it caused the death and re-birth in other nations over the last several millennia. Uranus, Neptune transits will be looked at as well as the 2022-25 eclipses and eclipse paths going directly over the U.S. map; how and why this will deeply impact our economic future. Cryptocurrencies will be covered as well as historical periods of pandemics. Tom serves on the TAG steering committee as Secretary and tech person extraordinaire.
