## **“The TURNING OF THE AGES ACCELERATES 1962-2034”**

A foundational element of Daniel Giamario's work has been the understanding of “The Turning of the Ages,” a term he coined back in the 1980s. In this presentation, he will share his latest research on this most important topic. Included will be the following subjects:

- 1 The World Ages, including the precessional cycles and latest research on the Yugas.
- 2 How the different Zodiacs interact over time.
- 3 The variety of Pole stars.
- 4 The Role of the Milky Way.
- 5 The Role of the Solstices and Equinoxes.
- 6 A Global Update, including the possible *fate* of the United States or the realization of its *destiny*.
- 7 The creation of *Seed People*.

## **Wendy Stacy - A Curse or a Blessing: Unaspected Planets**

Very little research has been done on Unaspected Planets yet they have been used since the writings of Ptolemy. So how do we interpret planets that do not have any major aspects in the birth chart? How do these planets connect or integrate with the other dynamics in the horoscope? This talk will look at how Unaspected Planets can be the most dominant and obvious placement in the birth chart, how they can behave and express themselves, and explore the vast or limited resources available that can either bottle or unleash them.

**BIO: Wendy Stacy** (BA, MA, Dip LSA) is the principle of the international Mayo School of Astrology (since 2007), tutor for the London School of Astrology (since 2003) and Chair of the Astrological Association (since 2002). She has written numerous articles for the *Astrological Journal*, is the author of *Consulting with Astrology* (2012), *Uranus Square Pluto* (2012) and about to have published *Covid-19 through the Microscopic Lens of Astrology and Unaspected Planets*.
