**May 12, Friday, 7:30 pm AZ/PDT**

### **Medical Astrology and the Art of Surgery Timing**

What does an astrological chart reveal when it comes to our physical body? As it turns out, the short answer is "A lot!" In this presentation, we will discuss the medical implications of the signs, houses, planets and aspects of the chart. Then, numerous examples will demonstrate how to elect the most preferable date for a surgical procedure. Examples include the use of secondary progressions, solar arcs and transits to the natal chart.

**May 13, Saturday, 1 - 5:00 pm AZ/PDT**

### **Medical Astrology Workshop**

The astrological chart is an invaluable tool in so many ways, one of which is its implications regarding the physical body, our lifestyle, diet and health patterns. This workshop goes in-depth into how to read the chart from a health perspective by focusing on the role of the signs, houses aspects and planets. We will also explore what to look for in transits, progressions and solar arcs.

Note: This workshop is designed for those who already have a working knowledge of the components of the chart and understand astrological vocabulary.

**Bio:** Kathryn Silverton holds a master's degree in psychology and is professionally certified by the American Federation of Astrologers. (AFA) She has been in practice for close to four decades and consults with clients throughout the globe. She teaches intermediate to advanced levels of astrology, including the math of casting charts, to prepare students for their professional certification. She is president of the Metropolitan Atlanta Astrological Society and serves on the board of directors of the AFA.
