### **Eastern and Western Astrology: Unity in Diversity**

Come and explore the fascinating ancient system of Vedic astrology of India. We will examine similarities and differences between tropical and sidereal astrology. Unique predictive techniques of the planetary periods of Jyotish will be discussed. In addition, an introduction to the 27 nakshatras of Vedic astrology will be presented.

**Nov. 11, Saturday, 1-4:00 pm AZ/MST In-Person & by Zoom, \$20/\$25**

### **The Nakshatras: The Lunar Mansions of Vedic Astrology**

The nakshatras are considered the primordial zodiac of Vedic astrology. We will explore the rich meaning and sacred stories associated with each of the twenty-seven lunar mansions. The nakshatras are utilized not only in natal chart analysis but also for relationship compatibility and electional astrology. The nakshatras are also the basis of the calculation of the predictive periods (dashas) of Jyotish, the science of light. Each lunar mansion has associated Hindu deities which reveal their deeper spiritual meanings. The workshop will be interactive as we explore the Vedic charts of class participants. Send your birth data to [dennis@dennisharness.com](mailto:dennis@dennisharness.com) to get a complimentary copy of your Vedic chart for the workshop.
