Arielle Guttman and Catherine Boyer – The Scorpio Venus Star Point & More...

Please join us for an informative presentation featuring the upcoming **Scorpio Venus Star Point** and MORE! Not only will we address the finer points of the final VSP in Scorpio, but we'll also explore themes of **Venus Retrograde** and the **VSP Awakening in Libra** for the first time in over 100 years. We believe this is just what planet EARTH needs right now!

The actual date of the VSP, the Sun/Venus Cazimi, is October 23, 2026, and when Venus and the Sun "kiss," its effects often impact us for the following nine months during which Venus journeys through the cosmos. We'll also explore the USA's VSP Return, which coincides with this Scorpio VSP, and discuss how it impacts nativities based on which HOUSE this VSP occupies during this period.

Send your chart data to catherineboyerastro@gmail.com no later than September 10th, and she'll prepare your VSP Chart for you to review during this special gathering.
